

BACKGROUND

Different development departments are implementing government Policies and Plans. Proper and meaningful implementation of the Government Policies and Plans depends on efficient work force.

With view to increasing efficiency in working of the officials who are in touch with Project formulation, Monitoring, Evaluation, Implementation and Management, Ministry of Development of North Eastern Region and NEC have been organising capacity building training programme for North Eastern States in association with different renowned private Training Institutes of the country. Moreover, some training programmes have been organised in association with the World Bank and UNDP.
